

Driver's Per Diem Report for Tax purposes

Peoplenet Users:

Go to www.pfmlogin.com, click on Driver Center Login

The screenshot shows a web browser window with the URL <https://www002.pfmlogin.com/pfm-main/authentication/login>. The page features the PeopleNet logo (A TRIMBLE COMPANY) and a welcome message: "Welcome to the PeopleNet Fleet Manager". Below this, there are two input fields: "Company ID" with the value "3079" and "Password" with masked characters "*****". A blue button labeled "Driver Center Login" is positioned below the password field. The browser's address bar and taskbar are also visible.

Company ID is 3079. Then enter your driver ID (driver code) and password (driver code plus 99).

Your log will appear as seen below:

The screenshot displays a web application interface for a driver log. At the top, there are browser tabs and a URL bar. Below the browser, a navigation bar contains various application links. The main content area is divided into several sections:

- Vehicle Information:** A table showing details such as Last Certify Date (01/26/2016 1:40), Vehicle (4208), EOB# (1538262), and Jurisdiction (USA - Mainland).
- COMPLIANCE SUMMARY:** A table listing regulations like 'US Federal 708 Long Haul' and 'Canada Cycle 707' with associated metrics like 'Driving Time Available' and 'Total On Duty per Reg'.
- Duty Status Chart:** A grid showing duty status (Off Duty, Sleeper Berth, Driving, On Duty) over a 24-hour period.
- EVENT LOG:** A table with columns for EVENT, DELTA, LOG TIME, CREATED TIME, LOC/HPD, REMARKS, CO-METER, and CREATED BY. It lists events like 'Auto odometer', 'Co-Driver', and 'Sleeper berth'.
- Signatures:** Fields for Supervisor and Driver signatures and dates.
- Navigation:** A yellow bar at the bottom contains navigation links like 'PREVIOUS DAY', 'LOG DATE: Wednesday Jan 27, 2016', and 'NEXT DAY'.

Just below the log, find the tab that says Per Diem Report. Click on that.

This will allow you to select monthly reports to email as a CSV to yourself.

They will only retain the past 6 months of your logs so you will want to do this monthly.

Bluetree users:

You can purchase a flash drive or memory stick and we can save all your logs to that the next time you hit a US terminal.
